

# DASHING DIVA PROFESSIONAL

*Style Salon*  
EXPRESS MANICURE SALON

## how to install your dashing diva window decal

- Firstly clean the area of glass with soapy water. The area can be left wet.
- Peel the decal off the paper backing and wet the paper if necessary to assist removal.
- Place the decal onto the wet surface of the glass and slide it into the correct position.
- Dry the glass and the decal at one end and then secure the position with masking tape, squeegee wiping and smoothing with a clean cloth.
- Once all bubbles have disappeared with smoothing, allow to dry, wiping excess moisture away with your cloth or napkin.
  - It can take up to 24 hours before the moisture evaporates and the adhesive cures after which you can remove the tape.
